THE MILITARY RESOURCES OF THE LOYAL SOUTH.

High military officers, not hitherto suspected of entertainments such views, are beginning to see in the able-bodied African population of the South a vast army available for military purposes. Gradually the Government is approaching the point at which Gen. Hunter arrived months ago. When the 1st of January arrives, if not before, the powers that be will probably be prepared to draw upon the military resources of the loyal South.

The apprehension expressed by the weekly representatives on our conduct by the newly-appointed commissioners of the Freedmen's Bureau will arise therefrom, the consequence of which it is impossible to foresee. We have left, therefore, the liveliest satisfaction in perceiving that the conduct of your Excellency was calculated to prevent further effusion of blood, and to secure the safety of the slaves, and the welfare of the Government. The object, therefore, of this appointment is to assure your Excellency that the moderation and friendly disposition which your Excellency has displayed toward the Government, and which we were accustomed to during the course of your administration, will be continued.

We avail ourselves of the opportunity to offer to Your Excellency our sentiments of high veneration and esteem.
